**Cosel Japan – Earthquake Announcement**

---

On March 11<sup>th</sup> Japan sustained a major earthquake. The Cosel Company manufacturing facilities and headquarters are located in Toyama, which is on the western side of Japan at a considerable distance from the epicenter.

We would like to announce that fortunately Cosel production lines were not in the least damaged. Most of Cosel's manufacturing suppliers were not in the affected area. However, Cosel is assessing any potential delay in supply as well and transportation delay, which may be slight. We will continually update our Valued Customers of any product delays.

Yours truly,

Mitsuhiko Tanino  
Director of Administration  
Cosel Co., Ltd. Japan
